

Pioneer HR2500 PowerGlide™ System

The Pioneer HR2500 PowerGlide is a versatile, affordably-priced tarping system. The slide carriage design and hydraulic gantry allow the PowerGlide to cover containers of various heights and lengths. The hydraulic system installs easily and virtually maintenance-free. The PowerGlide is backed by an industry leading 3-year system warranty.

Versatility & Operation

- Carriage slides forward and backward 24" to accommodate various size containers
- Adjustable gantry moves 60" to 96"
- Direct drive hydraulic motor provides smooth, quiet operation
- Suitable for multiple axle roll-off hoists or single axle hoists with containers up to 24'

Durability

- Industry leading 3-year system warranty
- Heavy duty torsion springs provide a 10-15 year service life
- Heavy duty windscreen prevents whipping of the tarp, which results in longer tarp life
- Reinforced rear pocket provides increased strength, extending the life of the tarp

Installation & Maintenance

- Maintenance-free slider carriage bearings provide easy movement and will last the life of the system
- Hydraulic system requires less maintenance and is more durable than electric systems

Options

- Steel arms (aluminum arms standard)
- Remote control
